

Supreme 20% Ewe

Crude Protein %	ME (MJ/kgDM)	UFL	Coarse Ration	Pellet
20	10.6	0.98	★	★

- Protein sources derived from high quality rumen bypass protein guaranteed to optimise growth
- Energy sources from Irish grown grain which is essential in the production of milk
- Includes highly digestible fibre sources to aid rumination and digestion
- High specification Rumi-pro sheep mineral, to ensure all mineral requirements are covered

- **Promotes strong milk yields and colostrum quality which promotes ewe and lamb bond and lamb immunity through immunoglobulins transfer and achieved lamb thrive**
- **Suitable for ewes pre and post lambing**
- **Twin Suckling lamb can gain up to 325g/day or 2.25kg/week therefore it is of the utmost importance to provide sufficient energy and protein into the diet for the ewe to sustain this production.**
- **Excellent palatability to increase Dry Matter intakes for ewe's pre and post lambing. Overall DMI will fall pre lambing and then increase post lambing by 30-50%.**
