

# Supreme 18% Ewe Pellet

Crude Protein	UFV	ME (MJ/kg fed)	Coarse Ration	Pellet
18%	0.96	11.2		★

- High inclusion of natively grown grain with excellent quality digestible fibre
- High quality ewe pellet perfect for pregnant and lactating ewes
- Includes high spec mineral Quinns RumiPro Sheep

Supplementation pre lambing is extremely important to drive ewe milk yield and quality in early lactation. Feeding concentrates of high protein content in late gestation will aid growth of the lamb(s) and aid in meeting the nutritional requirements of the ewe.

# Super 18% Ewe Pellet

Crude Protein	UFV	ME (MJ/kg fed)	Coarse Ration	Pellet
18%	0.94	11.0		★
