Welcome to Quinns of Baltinglass, your trusted partner in equine care and management. As a leading provider of premium equine feeds, fertilisers, grass seed, fencing and hardware, we are dedicated to supporting horse owners and enthusiasts in their pursuit of optimal animal health and performance. With decades of experience in the industry, we understand the unique nutritional needs of horses at every stage of their life, from foals to seasoned competitors.

Our extensive range of high-quality equine feeds is specially formulated to provide essential nutrients, promoting healthy growth, energy, and overall well-being. We also offer a variety of fertilisers and grass seed designed to enhance pasture quality and boost forage nutrition, ensuring your horses have access to the best grazing possible.

At Quinns, we pride ourselves on having a wide range of equine products. Our knowledgeable staff is committed to providing expert advice and guidance, helping you select the right products for your specific requirements. In addition to our exceptional feeds and fertilisers, our fencing and hardware section features an assortment of essential supplies to support your equestrian lifestyle.

We invite you to explore our offerings at one of our six branches and experience the Quinns difference.

Quinns Equine Feed

Quinns have been manufacturing quality animal feed since 1996 in Baltinglass. Our feed plant is accredited under the Universal Feed Assurance Scheme (UFAS) and all grain purchased is from Irish Grain Assurance Scheme (IGAS) approved growers. All home grown grain and proteins are blended with only the best quality imported raw materials available to ensure optimum quality feeds at all times. Quinns have also invested in a NIR machine which now enables the Quality Control Manager to analyse both incoming raw materials and the outgoing finished feeds on site. This new facility guarantees that customers will get a consistent quality feed at all times. Maximising performance is what Quinns are all about and to achieve this, the sales and technical team are available to provide both practical and nutritional advice as well as a wide range of on (stud) farm services including forage sampling (grass and preserved forages) and soil analysis.

Easy Equine

Our Easy Equine coarse mix contains locally grown grains that are nutritious and rich in natural oils and fibres from quality derived sources. Antioxidants and prebiotics for overall health and thrive are included.

Content	Mix
Digestible Energy (MJ/kg)	10.7
Crude Protein %	11
Oil %	3.3
Fibre %	10.9

This Easy Equine is tailored for:

- Light working ponies
- Domestic ponies
- Senior ponies

Horse & Pony

We have formulated our Horse & Pony mix to create a mix that can help aid growth and development with ingredients that slowly release energy helping to keep stamina high.

Content	Mix
Digestible Energy (MJ/kg)	10.8
Crude Protein %	14
Oil %	3.1
Fibre %	7.6

This mix is tailored for:

- Horses in maintenance
- Domestic ponies
- Ponies in recovery

Scan the QR code for more information on Animal Health

Leisure Cubes

We have formulated the leisure cubes to give a balanced cube with sources of slow release of energy and fibre. Perfect for horses or ponies later in life with minimal activity.

Content	Mix
Digestible Energy (MJ/kg)	10.7
Crude Protein %	10
Oil %	3.4
Fibre %	13.4

This mix is tailored for:

- Senior horses
- Excitable horses
- Light working horses

Stud Cubes

Our Stud Cubes are designed to fuel growth and development for active horses. They contain quality protein and energy sources with plenty of fibre to encourage optimum performance and condition.

Content	Mix
Digestible Energy (MJ/kg)	10.7
Crude Protein %	14
Oil %	3.3
Fibre %	11.2

This mix is tailored for:

- Racehorses 6 weeks from competition
- Working horse
- Horses needing additional condition

Minerals

Stockists of minerals, supplements and wormers from the following companies

Proud stockists of Bluegrass and Dengie products.

** Our mixes are not tested for theobromine so there is no guarantee given that this feed conforms to the regulations of the Jockey Club, The Turf club, or the BSAJ regarding prohibited substances.

Organic & Equine Grass Seed Mixes

Quinns Green Ley 6 Equine Paddock mix and Grazing 13kg

- Provides good dense sward with good ground coverage
- Good tolerance against poaching
- Tailored for high fibre low protein grass sward

6.0kg PRG Indicus

3.0kg PRG Rodrigo

1.5kg Dwarf Elegana

1.5kg SSMG Balin

1.0kg Red Fescue

(10733)

Quinns Green Ley 9 Organic Grazing White Clover 10kg

- Dual purpose for cutting and grazing with good growth rates and hardiness

1.7kg PRG LATE

1.7kg PRG INT

1.3kg PREG EARLY

2.0kg Meadow Fescue

1.7kg Timothy

1.0kg Smooth stalked meadow fescue

0.6kg White Clover

(10682)

**NOT
DAFM
APPROVED**

**Quinns stock a full range of grass seed including
haylage, red clover, multispecies and more.

Stable & Yard Products

Boredom Buster - Great boredom reliever- available in a range of colours

Wheelbarrow - Twin wheel tipping barrow capacity 250 ltr

Hay Nets - Suspends hay to keep clean and together

Head collar - Nylon head collar available in a wide range of colours

Hoof oil - available in a range of sizes 500ml/1ltr. Strengthens horse hoofs

Micro Drinker - 4ltr drinking bowl- made from double wall plastic for extra strength

Saddle rack - Ideal for saddle storage

Shavings fork - 10 prong fork comes with metal or timber handles.

Uniblock horse - 12.5kg bucket Very high in Copper

CARR & DAY & MARTIN
EST. 1765

McEVOY
ANIMAL BEDDING - WOOD PELLETS - TIMBER

Fencing Products

Fencing tape - Carries current comes in 200m rolls and in 12mm 20mm and 40mm tape size

Super W insulators - Fix equifence to stakes 25/pack

M10 fence - Mains fencer that will cover 4ac or 1.5km

Horse Wire - Comes in 4ft and 5ft heights and in 50m or 100m rolls

Post and rail - 4x2 rail in 6m lengths post are 5ft 6x3

Gate handles - Sold single or in packs of 5

Strainers - Keeps wire tight great on high tensile wire

Equifence - Specialised equine electric wire 250m rolls

Battery and fence - Great for strip fencing used on a range of distances

Talk to our experienced staff for more information on these products and more

Fertiliser

Quinns wide range of fertilisers ensures we have the right fertiliser for you. As well as traditional chemical fertilisers, here are some other options.

Humber Palmers compound fertilisers are a great choice for equine ground whether for grazing, hay, or racing gallops. Equine customers are looking for steady grass growth and healthy looking pastures where their horses and ponies will be content.

The unique make up of Humber Palmers fertilisers provide a 16 week phased release of Nitrogen during the growing period, helping to suppress weeds and promote the growth of palatable and nutritious grass. The unique phased release qualities of Humber Palmers fertiliser and the benefits of the organic base helps the equine sports ground look good for the season by promoting leafy, dense sward with added resilience to the challenges of the competitive season.

Humber Palmers specialist manufacturing process guarantees every granule of fertilisers contains the key mineral nutrients of Nitrogen, Phosphate and Potash together with Sulphur, Trace Elements and our unique organic base. This homogenous granule ensures that there is an even and consistent distribution of nutrients across the pasture. Zinc is important for healthy hooves and skin as well as Copper, Cobalt and Selenium which all contribute to overall animal health.

Humber Palmer Product Range

Grade	Nitrogen N	Phosphate P	Potassium K	Magnesium MgO	Sulphur SO ₃	Trace Elements
No.3 3-15-15+15.5SO ₃	●	●	●	-	●	●
No.8 9-4-10+5MgO-22.5SO ₃	●	●	●	●	●	●
No.13 14-6-8+32.5SO ₃	●	●	●	-	●	●
Top N 21-0-0+1MgO+32.5SO ₃	●	-	-	●	●	●
Soil Boost	Soil conditioner containing a unique combination of ingredients to improve the structure of the soil and the uptake of the nutrients to the plants.					

- Nitrogen is important for grass growth, all Humber Palmers Nitrogen grades contain a mixture of Nitrogen sources ensuring a controlled and extended nutrient release, low in nitrate to minimize leaching from the soil. Top N is designed to get the maximum result from your gallops.
- Sulphur is included to assist in the uptake and conversion of the nitrogen into true protein thereby maximising the feed value of the grass.
- Phosphate and Potash are also included in some grades to help ensure the health of both plant and animal.
- Includes a wide spectrum of other natural Trace Elements such as Zinc important for healthy hooves and skin as well as Copper, Cobalt and Selenium which all contribute to overall animal health.

Soilworx Organic Dynamo is primarily for use when sowing cereals or reseeding grass. Made from a blend of quality manures including chicken litter, Dynamo™ is naturally

- High in organic carbon
- Full range of trace elements.
- Creates the perfect environment for the seed to develop
- controlled release of nutrients in the vital early stages of growth.
- Increases microbial and earthworm activity in the soil,
- Improved soil structure and fertility.
- Guaranteed to be free of weed seeds & pathogens.

Dynamo Organic Typical Analysis

Nitrogen	40 kg (80 units) per tonne
Phosphorus	10 kg (30 units) per tonne
Potassium	25 Kg (50 units) per tonne
Calcium	63 kg per tonne
Magnesium	6.2 Kg per tonne
Sulphur	6.1 Kg per tonne
Sodium	4.1 kg per tonne
Copper	40 g per tonne
Manganese	441 g per tonne
Boron	32.1 g per tonne
Iron	0.1kg per tonne
Zinc	384 g per tonne
Molybdenum	3.55 g per tonne
Organic Carbon	41.8%
Organic Matter	72.1%
